

**PREP FOR CREATING THE WORD**

1. Have the pictures you want for the Word in your Photo Bin. Put them in the order you want them for the letters.
2. Have your bg first and selected.

**CREATE THE WORD**

1. Go to the Guided Module > Fun Edits > Multi Photo Text
2. Follow the Guided Edit instructions.
3. You can change the size of the first letter.
4. To get it larger you select FIT. Can still use bounding boxes to alter.
5. Select Photo Bin to select your pictures.
6. If you select Photo Bin they will go in each letter (frame) in order.
7. To adjust pictures click on it, use the Move Tool and the Bounding Boxes to adjust. Be sure you have the picture not the letter selected.

**You know you have the picture (Not Letter) because you will have the controls.**

8. You already have bg so skip step 5.
9. Select SMALL for the Bevel, Drop Shadow and Stroke.
10. Click the Next (lower right)
11. Continue Editing in Expert
12. This is only part of what you Layers Panel will have in it.
